As an example of the authentic *pesto alla genovese*, this green pesto from Valvona & Crolla did not fail to impress the judges, proving that sometimes it is the simplest and most traditional products are the best! This contender boasts a beautiful deep green colour and has a wonderfully pungent aroma, which is dominated by delightfully evocative overtones of fresh basil. With a light texture, but bursting with authentic flavour, the tasting panel decided that this pesto works particularly well when its simple but effective qualities are plainly showcased. With this in mind, we'd recommend trying this traditional pesto mixed with trenette pasta, and coupled with just a sprinkling of toasted pine nuts and Parmesan to complement its flavours.

## VERDICT ★★★★★

A pesto the Italians would be proud of, this classic was a popular choice among the judges and definitely one to try.
